

BROADBAND STATISTICS

Availability numbers by platform. Each of the 5 platforms has availability calculated, and then the grouping of wireline (cable, DSL, fiber) and wireless (fixed and mobile) were calculated. These calculations are using the 2000 Census household data and the broadband data from the October 2011 submission.

Cable

Statewide Broadband Covered Households: 5,580,750.50

Statewide Unserved Households: 757,178.50

Statewide Total Households: 6,337,929

Percentage: 88.05%

DSL

Statewide Broadband Covered Households: 5,570,705.10

Statewide Unserved Households: 767,223.90

Statewide Total Households: 6,337,929

Percentage: 87.89%

Fiber

Statewide Broadband Covered Households: 1,396,574.34

Statewide Unserved Households: 4,941,354.66

Statewide Total Households: 6,337,929

Percentage: 22.04%

Wireline Total

Statewide Broadband Covered Households: 6,147,549.79

Statewide Unserved Households: 190,379.21

Statewide Total Households: 6,337,929

Percentage: 97.01%

Fixed Wireless

Statewide Broadband Covered Households: 815,261.21

Statewide Unserved Households: 5,522,667.79

Statewide Total Households: 6,337,929

Percentage: 12.86%

Mobile Wireless

Statewide Broadband Covered Households: 6,308,331.01

Statewide Unserved Households: 29,597.99

Statewide Total Households: 6,337,929

Percentage: 99.53%
