2004: THE YEAR IN REVIEW

Southwest Florida's economy experienced strong growth in 2004. As in 2003, the region showed continued increases in the areas of building permits, sales, and employment

LABOR FORCE, EMPLOYMENT AND UNEMPLOYMENT The labor force in Southwest Florida increased by more than 31,615 persons or 5.51% in 2004. Unemployment continued to decline in three counties while Lee and Sarasota stayed the same. As in 2003, the coastal counties again had low unemployment rates, while the rural counties of Glades and Hendry had high rates of unemployment that exceeded the state level. As a whole, however, the regional unemployment rate was below the state figure for the year.

AIRPORT PASSENGERS The number of airline passengers using the Region's airports increased this past year. During 2004, Southwest Florida International Airport experienced a 14.7% increase while Sarasota/Bradenton Airport and Naples reported a increase of 7.1% and 18.0%. As in the past years, passenger traffic peaked in the month of March, with more than 1,006,098 people traveling through Southwest Florida's airports.

BUILDING PERMITS The construction industry, a major sector of the Southwest Florida economy, recorded another annual increase in the number of building permits issued last year. Based on reports received, the region as a whole experienced a 31.5% increase in the number of single family permits issued and a 26.7% increase in the number of multi-family permits issued in 2004. The number of multi-family units increased 36.4% from 2003 to 2004. Overall, total permits reported (single family plus multi-family permits) for the region increased by 31.0%. Please note in supporting tables the communities with incomplete information.

The value of all reported residential permits increased 41.0% from \$4.1 billion in 2003 to \$5.8 billion in 2004. The total value of all reported permit activity increased 37.8% from \$6.3 billion in 2003 to \$8.7 billion in 2004.

SALES ACTIVITY Regional gross and taxable sales increased in 2004. Gross sales increased 11.6%, from \$37.4 million in 2003 to \$41.8 million in 2004. Only one of the six counties experienced a decrease in gross sales at 14.0%. Taxable sales totaled \$21.9 billion in 2003, an increase of 13.5% over 2004 taxable sales of \$24.8 million. Typically, the winter and spring month of December through May register the highest gross taxable sales. As in past years, April was the peak month, with taxable sales of \$2.5 billion and January was the peak month, with gross sales of \$4.5 billion.

CONSUMER PRICE INDEX The Consumer Price Index measures the cost of items in several specific categories and is used as an indicator of the general rate of inflation through time. From 2003 to 2004, the Consumer Price Index for All Urban Consumers, of the CPI-U, rose from 184.0 to 188.9.

Note: Building Department Data submitted on behalf of the City of Fort Myers from May 2004 to present. Discrepancy with number of units, all other data is valid.

CONSUMER PRICE INDEX

The Consumer Price Index (CPI-U) for all urban consumers measures the cost of items in several specific categories and is used as an indicator of the general rate of inflation through time. The CPI-U during January 2005 increased 0.2 from December 2004. The CPI-U for January 2005 was 190.7, an increase of 3.0 from January 2004.
