### SOUTHWEST FLORIDA LEPC MEETING AGENDA

May 27, 2021 - 9:30 am

Zoom Meeting: https://zoom.us/j/92927062794?pwd=ZkhqM2FPODhHNWNWOXNrUnN5Z2ROZz09

> <u>Call-In Number</u>: +1 (929)205-6099 <u>Meeting ID</u>: 929 2706 2794 <u>Passcode</u>: 103624

1.	Invocation	
2.	Pledge of Allegiance	
3.	Introductions/Roll Call & Call to Order: Bruce Porter, Chair	
ACTION	NITEMS: OLD & NEW BUSINESS	
4.	Minutes of the February 25, 2021 Meeting: Bruce Porter	Page 6
5.	LEPC Membership: Katelyn Kubasik, LEPC Coordinator	Page 20
6.	SWF LEPC Hazardous Materials Emergency Response Plan- 2021 Update: Katelyn Kubasik	Page 22
ADMIN	IISTRATIVE ISSUES	
7.	SERC Meeting Updates: Katelyn Kubasik	
8.	LEPC Meeting Schedule & Locations: Katelyn Kubasik	Page 24
9.	LEPC HazMat Exercise 2020-2021: Matt Marshall, LEPC Training Chair	
REPOR	TS	•
10.	Southwest Florida LEPC Training Subcommittee Report: Matt Marshall	
11.	Tier II Reporting & E-Plan Update: Matt Marshall	
12.	Florida Division of Emergency Management (FDEM) Trainings & Events	Page 26
13.	Hazardous Materials Incidents in Southwest Florida	Page 28
СОММ	ENTS & CLOSING	
14.	Topics for Future Meetings	
15.	Member Comments	
16.	Public Comment	
17.	Next Meeting: August 26, 2021	
18.	Adjournment

# Minutes of the 02/25/21 Meeting

#### SOUTHWEST FLORIDA LOCAL EMERGENCY PLANNING COMMITTEE

#### Meeting Minutes of February 25, 2021

The Southwest Florida Local Emergency Planning Committee (LEPC) met on February 25, 2021 via GoToMeeting due to COVID-19 restrictions. The following members were present during the proceedings which began at 9:33 a.m.

#### **LEPC Members Present**

Sean Alley, Sarasota Memorial Hospital Lina Cerquera, Florida Department of Environmental Protection Kristen Chardo, ADP Total Source Matt Currie, U.S. Dept. of Homeland Security (DHS) Scott Davis, Fort Myers Fire Dept. Jemima Desir Douge, Florida Poison Control Center/ Tampa General Hospital Rhonda Holtzclaw, FGCU Gregory Fisher, LeeHealth Michael Laycock, Florida Gas Transmission Company Matt Marshall, Cape Coral Fire Department, LEPC Training Chair Brian Massey, LeeHealth Dave Rawicz, Cheney Brothers Dan Sieber, San Carlos Fire Department Jennifer Smith, Florida Department of Health Eric Tiefenthaler, City of North Port Emergency Management Dawn Thomas, LeeHealth Jason Wilkins, Sarasota County Fire Dept. Teresa Zilko, Lee County Risk Management, LEPC Vice-Chair

#### **Others Present**

Michelle Cechowski, East Central LEPC Bing Crosby, DHS Kelly Gibbs, DHS Rebekah Harp, Southwest Florida Regional Planning Council (SWFRPC) Curtis Knowles, Central Florida LEPC Katelyn Kubasik, SWFRPC – LEPC Coordinator John Meyer, Tampa Bay LEPC Donna Ray, Florida Department of Emergency Management Mike Ryan, City of North Port Emergency Management Kathleen Ward, DHS Margaret Wuerstle, SWFRPC

### AGENDA ITEM #1-2 Call to Order & Introductions

Chairman Porter was not present so LEPC Coordinator, Katelyn Kubasik called the meeting to order at 9:33 a.m. The pledge of allegiance was said and roll call was conducted.

### AGENDA ITEM #3 Presentation: Florida Gas Transmission Natural Gas Pipeline

Mr. Michael Laycock of Florida Gas Transmission Company gave a presentation on High Pressure Natural Gas Pipelines & Emergency Response. He discussed compressor stations, and other facilities that including meter stations, mainline valves, and lateral line block valves.

Mike showed a video of the Inglis Blowdown which demonstrated has being blown off in Central Florida when working on a 36-inch line gas needed to be vented off. Over 1,000 lbs. of pressure was released. He went on to discuss pipeline markers that alert you on the presence of a pipeline, these markers contain the name of the operator and emergency contact information. Mike stressed the importance of markers and stated that markers do not necessarily represent the exact location of the pipeline facilities within the easement.

Mr. Laycock went on the explain that if there is a pipeline rupture it can cause severe damage, effecting infrastructure, roads, hospitals, power plants and is very expensive. Not only that, but there is also a high possibility of severe injury and loss of life. If an incident happens, call 911 immediately.

Mr. Laycock provided a reference sheet for recommended evacuation distances that can be found attached to these minutes.

### AGENDA ITEM #4 Minutes of the December 3, 2020 Meeting

Chief Marshall entertained a motion to accept the draft LEPC meeting minutes of the December 3, 2020 meeting.

A motion was made by Scott Davis to approve the minutes of the December 3, 2020 LEPC meeting as presented. The motion was seconded by Mr. Eric Tiefenthaler and passed unanimously.

### AGENDA ITEM #5 LEPC Membership

There were no membership changes to be presented. However, Mr. Eric Tiefenthaler announced his retirement in April and introduced the LEPC to his replacement Mr. Mike Ryan.

Mr. Ryan's membership nomination form will be in the next meeting packet.

### AGENDA ITEM #6 2021 HazMat Plan Draft

Chief Marshall explained that our yearly update to the plan is in the works, a draft version is linked in the packet and can also be found on the SWFRPC website. <u>https://www.swfrpc.org/wpcontent/uploads/Programs/LEPC/2021\_LEPC\_Plan\_Draft.pdf</u>

### AGENDA ITEM #7 LEPC Meeting Schedule & Locations

The 2021 LEPC meeting schedule is as follows:

- Thursday, May 27, 2021
- Thursday, August 26, 2021
- Thursday, December 2, 2021

\*Due to COVID-19 meetings will be held virtually until further notice\*

### AGENDA ITEM #8 LEPC HazMat Exercise 2020-2021

Chief Marshall explained that since the last meeting there has been a side meeting with a few of the HazMat team leaders who are looking to create a tabletop exercise possibly in person, based on a two-year plan. The City of Cape Coral has applied for a PHMSA grant for natural gas emergencies. There will be a tabletop with local fire departments and the assistance of the LEPC will be requested which will help completed task 7 in the LEPC contract. Moving forward, an exercise will begin to be planned in the summer months to be held in 2022, there will be more information on this provided at the May LEPC meeting.

### AGENDA ITEM #9 Southwest Florida LEPC Training Subcommittee Report

Chief Marshall explained that the SWF LEPC Training Subcommittee is currently conducting multiple classes. He brought to attention that at the last LEPC meeting there was discussion of a Bomb Tech HazMat Class and that was completed in January 2021 with the assistance of Manatee County, Estero Fire Rescue as well as the Lee County Bomb Squad. There will be a HazMat Tech Course in Charlotte County coming up, registration is full there will be 24 students. Charlotte County will also be scheduling another class that was approved last year. In the City of Cape Coral there will be a Safety Officer Class held virtually opened to 30 students. If there are any questions, please reach out to Chief Marshall. Chief Marshall added that there

will be a Propane Emergency Class in Cape Coral, it will be 6 days long. Half of the class will be paid for by the City of Cape Coral and the other half by the LEPC, taking us to the end of the budget for the year. The class will be held 3 days at Cape Coral and 3 days neighboring departments in the end of June.

Chief Marshall explained that for FY21-22 there have been two submittals for classes, a HazMat Tech class in Charlotte County and a HazMat Tech class in North Collier. Each class rounds about \$24,000 for 24 students equaling \$48,000. He suggested the LEPC sets aside \$20,000 like we have in the past for the HazMat Symposium if there is one in 2022.

### Chief Marshall entertained a motion to approve the two HazMat Tech courses for 2022 and setting aside funds for the HazMat Symposium. A motion was made by Scott Davis to approve the training schedule for FY22 as presented. The motion was seconded by Mr. Brian Massey and passed unanimously.

### AGENDA ITEM #10 Tier II Reporting and E-Plan Update

Chief Marshall reported that he and Ms. Kubasik conducted two virtual E-Plan, EPCRA and Shelter in Place presentations. He stated that 622 facilities have submitted their Tier II reports, last year there were 801 facilities so currently about 179 facilities still need to submit before the March 1, 2021 deadline.

Mr. Dave Rawicz from Cheney Brothers reminded everyone that if they have regulated risk management program chemicals, the deadline for reports and fees is April 1, 2021.

### AGENDA ITEM #11

### Florida Division of Emergency Management (FDEM) Trainings and Events

Chief Marshall explained that on the State's website <u>http://trac.floridadisaster.org/trac/trainingcalendar.aspx</u> there is the calendar of events and trainings that are available.

### AGENDA ITEM #12 Hazardous Material Incidents in Southwest Florida

Chief Marshall explained that on the State's website <u>https://apps.floridadisaster.org/swo/ArchiveNonAdmin.aspx</u> there is a running list of hazardous materials incidents by county.

### AGENDA ITEM #13 Topics for Future Meeting

No one had suggestions or requests for topics.

#### AGENDA ITEM #14 Members' Comments

Ms. Lina Cerquera with FDEP Emergency Response shared that they have recently updated the summary of petroleum cleanup requirements, which is a good one-page resource summarizing the applicability of the rural notification requirements when it comes to environmental impact. The resource can be found attached to these minutes.

### AGENDA ITEM #15 Public Comments

There were no public comments.

### AGENDA ITEM #16 Next Meeting

The next meeting was scheduled for May 27, 2021 and will be held virtually.

### AGENDA ITEM #17 Adjournment

There being no further business, the meeting was declared adjourned at 10:33 a.m. by Chief Marshall.

**Chairman Bruce Porter** 

**Approval Date** 

The meeting was duly advertised in the February 16, 2021 issue of the Florida Administrative Register, Volume 47, Number 33.

### Recommended Minimum Evacuation Distances

Natural Gas Pipeline Leaks and Ruptures

(Not applicable for Butane, Propane, or other Hazardous Liquids)

#### **Pipeline Size (inches)**

### **Table 1 - Evacuation Distance in Feet**

The applicable leak or rupture condition is that of a sustained trench fire fueled by non-toxic natural gas escaping from two full bore pipe ends. Blast overpressure is not addressed. The distances shown in Table 1 are intended to provide protection from burn injury and correspond to a thermal heat flux exposure level of 450 Btu/hr ft<sup>2</sup>. This is the accepted limit of heat exposure for unprotected outdoor areas where people congregate; as established by the US Department of Housing & Development Code 24CFR51, Subpart C, Siting of HUD Assisted Projects Near Hazardous Operations Handling Conventional Fuels or Chemicals of an Explosive or Flammable Nature. The formula used to calculate distance was taken from the Gas Research Institute Report GRI-00/0189, *A Model for Sizing High Consequence Areas Associated with Natural Gas Pipelines*, 2001, prepared by C-FER Technologies. That model does not take into account wind or other factors which may greatly influence specific conditions. Users are advised that the distances shown in Table 1 are considered to be "general information" only and are not intended to replace a site specific risk analysis. The Pipeline Association for Public Awareness makes no warranty with respect to the usefulness of this information and assumes no liability for any and all damages resulting from its use. Anyone using this information does so at their own risk.

### **Summary of Petroleum Cleanup Requirements**

OER provides this summary along with a list of emergency response cleanup contractors to assist responsible parties (RP) in meeting the FDEP cleanup requirements in Florida Statute 376 and Chapter 62-780 FA.C. <u>The hiring of a</u> <u>contractor by the RP is typically needed</u> to provide the necessary equipment, personnel and expertise to address the discharge and meet all the regulatory requirements. Failure to promptly meet the requirements may result in enforcement action and recovery of cleanup costs. Typically, the quicker the cleanup, the lesser the extent of cleanup & cost. Cleanups may <u>not</u> be delayed while waiting for insurance or fault determinations. The RP, not the insurance company, is responsible for the cleanup and compliance, regardless of insurance coverage. Depending on many factors (especially depth and areal extent of contamination), cleanup costs typically range from \$3000 to \$25,000.

### **Applicability**

Applies to spills of <u>25 gallons</u> or more of petroleum products onto a pervious surface. Includes gasoline, diesel fuel, kerosene, jet fuel, etc. <u>Chapter 62-780.210</u> exempts the reporting of spills <25 gallons, provided they are cleaned up, properly disposed, and no contamination remains; otherwise these too are reportable within one week of discovery.

### **Notification Requirements**

- Discharges must be reported as soon as possible, but no later than 24 hours.
- Notify DEP via the State Watch Office (SWO) at (800-320-0519).
- If the discharge (of any amount) threatens or enters waters of the State, notify the State Watch Office and the National Response Center at (800-424-8802).
- File a Public Notice of Pollution at <a href="https://floridadep.gov/pollutionnotice">https://floridadep.gov/pollutionnotice</a>.
- Within 7 days, submit the required **Discharge Report Form** (DRF) to OER.

### Cleanup Requirements:

- F.S. 376.305: "Any person discharging a pollutant...shall immediately undertake to contain, remove and abate the discharge to the satisfaction of the department." The RP can use its own OSHA-trained personnel and equipment or hire a qualified contractor. Cleanup must conform to <u>Chapter 62-780 F.A.C.</u>
- Recover free product immediately (e.g., use absorbents, pumps, vacuum trucks, skimmers, etc.).
- Soil removal: usually takes longer. A contractor can handle all the following items and cleanup reports.
   Before digging, call 811 for underground utilities check (gas lines, phone lines, power lines, etc.).
   Obtain DOT or County/City right-of-way permit, depending on location.
  - Excavated soil shall be containerized (i.e., drums, roll-off containers), or temporarily stockpiled atop plastic sheeting and covered. May store on-site for a limited time but may not be practical or allowed on road right-of-ways. Storage off-site requires a DEP permit; therefore, the soil may <u>not</u> be taken back to the RP's facility.
     Disposal: typically, at a permitted soil thermal treatment facility (or, local landfill if accepted).
  - Disposal: typically, at a permitted solit itermal iteratinent facinity (or, local landing accepted).
     Note: the amount of soil to be removed depends on amount spilled, soil permeability, area, time since the discharge, etc. A 25-gallon spill may be 1 dump truck load, but a 100-gallon spill may need several trucks.
- Soil testing: required to confirm cleanup and adequate soil removal per Ch. 62-780.500 or Ch. 62-780.525
  - <u>Field screening</u> may be used (i.e., via Organic Vapor Analyzer [OVA]) when cleanups are conducted within 30 days of the discharge date. Excavate until OVA readings are <10 ppm. Readings should include the sidewalls and bottom of excavation. Odor or visual cannot be used alone; an instrument must be used.</p>
  - <u>Visual excavation</u> to a depth of 1 foot beyond visually stained soil in all directions is <u>only</u> permissible when the spilled material provides visual staining (i.e., Hydraulic Oil, Used Oil, etc.), and has not been mixed with more volatile materials requiring OVA screening (i.e. Diesel, Gasoline, etc.).
  - Lab samples are required for cleanups extending past 30 days from the discharge date. Typically, at least 1 bottom and 4 sidewall samples are needed. Follow DEP Quality Assurance rules; contractor/lab personnel may need to be hired for sample collection. Contaminated soil must also be tested prior to disposal.

### Source Removal Report

- A written, detailed SRR must be submitted to DEP within 60 days of cleanup.
- Requires many items, such as: cleanup description, disposal documentation (manifests), photographs, scaled site diagram, OVA readings, analytical lab reports, etc. DEP will thereafter notify the RP if the cleanup was adequate, or if further work is needed.

### LEPC Membership

## 5

### Southwest Florida LEPC Membership List – August 2020

Name	Title	Agency	Phone	Category	Alternate
Sean Alley	EM Ops/Trainer	Sarasota Memorial Hospital	(941) 917-8132	Hospital	Steve Moyer

#### SERC LEPC Membership Categories:

Local Emergency Planning Committees (LEPCs) must have representatives from the following occupational categories, as required in Section 301(c) of the Emergency Planning and Community Right-To-Know Act (EPCRA):

- 1. elected state/local officials;
- 2. law enforcement;
- 3. emergency management (civil defense in EPCRA);
- 4. firefighting;
- 5. first aid;
- 6. health;
- 7. local environmental;
- 8. hospital;
- 9. transportation personnel;
- 10. broadcast/print media;
- 11. community groups;
- 12. facility owners/operators subject to EPCRA;
- 13. interested citizens;
- 14. non-elected local officials;
- 15. water management district representative;
- 16. local option.

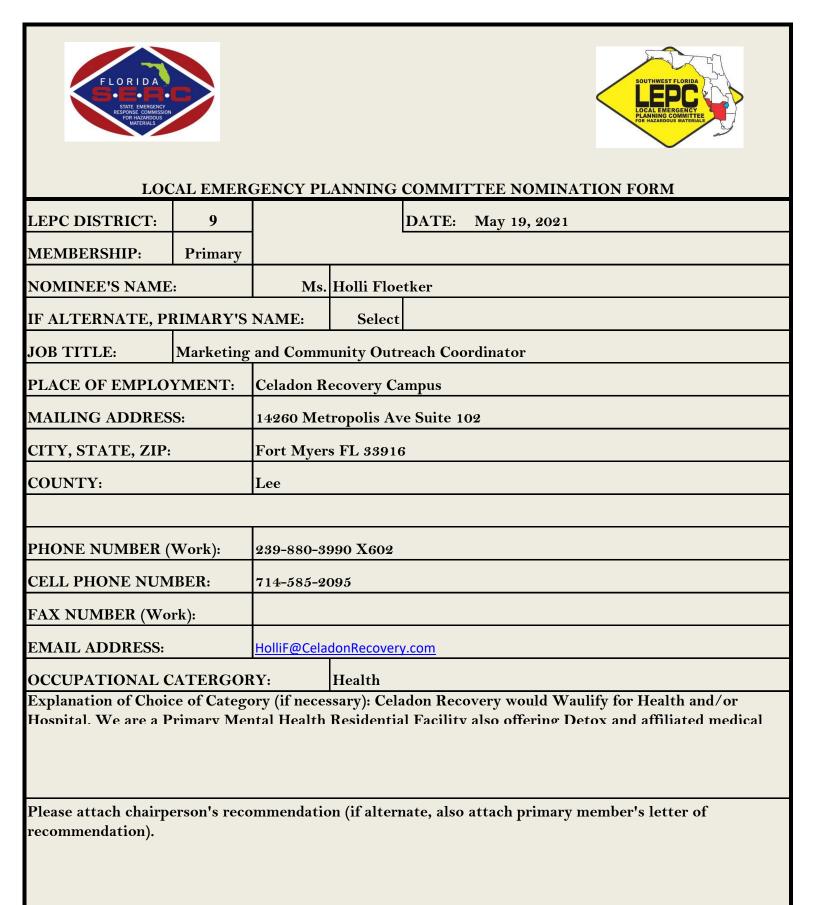

There should be a continued good faith effort on behalf of the LEPC chairperson to ensure that all of the occupational categories are represented on the LEPC.

Note: The following SERC categories are not EPCRA LEPC Membership Categories (§ 301(c)):

- First Aid
- Interested Citizen
- Non-elected Official
- Water Management District
- Local Option
- Local Environmental

Pursuant to 42 USC §11001(c), Establishment of local emergency planning committees, each local emergency planning committee "shall include, at a minimum, representatives from each of the following groups or organizations: elected State and local officials; law enforcement, civil defense, firefighting, first aid, health, local environmental, hospital, and transportation personnel; broadcast and print media; community groups; and owners and operators of facilities subject to the requirements of this subchapter."

Margaret A. Wuerstle Southwest Florida Regional Planning Commission 1400 Colonial Boulevard, Suite 1 Fort Myers, FL 33907

RE: Generator: TruGreen Date of Loss: March 15, 2021 County: Sarasota County Spill Center Claim: A21031800 Incident Number: None Assigned

Dear Ms. Wuerstle:

On Monday, March 15, 2021, at approximately 8:19 AM EST, an incident occurred which resulted in the release of approximately 70 gallons of liquid fertilizer. Apparently, the release was the result of damage sustained in a motor vehicle accident.

This loss occurred in Venice, FL on Interstate 75 Southbound near Mile Marker 195.

The technical name for the product released is Liquid Fertilizer, commonly known as liquid fertilizer. The product is not listed under section 302(a) of Title III of SARA.

We have contacted the Florida Department of Environmental Protection. The Southwest Florida Regional Planning Commission was also notified of the release. Alpha Omega Training and Compliance was retained to perform the cleanup on site. Additional information will be provided, along with applicable documentation, upon completion of disposal.

Please contact me if you require additional information at (978) 568-1922.

Very truly yours,

SPILL CENTER, INC.

Ernie Spencer Compliance Associate

Cc. Ms. Melanie Quick, TruGreen

### Sodium hypochlorite release in Marco Island

### Attachment: NRC#1301423

### Update 2 - 03/28/2021-12:56 / DEM-Grant

NRC#1301423 has been attached

### Update 1 - 03/28/2021-11:46 / DEM-Holcomb

Per Lina Cerquera via email: "OER spoke to the reporting party (N. Noone) regarding the 2,500 gallon 12% Sodium Hypochlorite release at a Wastewater Facility (FLA014167) at the reported location.

OER informed the reporting party the release is above CERCLA's RQ and needs to be called into the National Response Center (800-424-8802).

The release occurred when a 1,000 gallon day tank was overflowed via the on-site 1,800 gallon bulk tanks. The Day Tank's secondary containment only holds about 500 gallons so it too, was overflowed.

It is estimated that approximately 2,000 gallons impacted nearby impervious and pervious surfaces in two areas approximately 10ft. x 10ft. & 20ft.x 2ft. in the middle of the property.

No storm drains or waterways were reported to have been impacted and the release was reported to be secured & contained on-site.

The release was reported to have occurred at 0500hrs. and since then, water has been applied to the material in an attempt to neutralize it.

The facility also plans on applying a neutralizing agent to the release for further neutralization. OER informed Mr. Noone neutralizing the material is acceptable as long as no run-off is created to impact unimpacted areas, particularly off site or the nearby waterway and advised them of potential soil & groundwater testing requirements. OER provided a contractor list should additional resources be required. No OER on-scene assistance is being requested at this point."

### **Main Information**

Report #: 2021-1657

Status: Closed

Assigned To: DEP / Lina Cerquera

Reported to SWO on: 3/28/2021 10:09 ET

Severity: Local Incident

**Description:** Sodium Hypochlorite Release

This situation involves: Hazardous Materials

Affected Sectors: DEP District - South, DEP OER Ft. Myers On-Call

### Initial Report:

Caller reports a sodium hypochlorite release in Marco Island. Approximately 2,500 gallons of sodium hypochlorite released from a pump at a wastewater facility due to operator error.

The release was contained on site, and no storm drains or waterways were impacted.

The release has ceased, and cleanup actions are in progress. **Injuries:** No Fatalities (Unconfirmed by State Medical Examiner): No **Environmental impact:** Yes **DEP callback requested:** No **Incident Occurred:** 3/28/2021 05:00 ET Most Recent Update Date/Time: 03/31/2021-11:04 ET Most Recent Update: NRC#1301423 has been attached Affected Counties: Collier **Facility Name or Description:** Incident Location: Address: 807 Elkcam Cir E City: Marco Island Coordinates: Lat: 25.95872, Long: -81.72447 **Contact Information** Reporting Party: Name: Nigel Noone, City of Marco Island Utilities |Call Back Number 1: 239-986-4528 |Address: **Responsible Party:** Unknown **On-Scene Contact:** Unknown **Hazardous Materials Sub-Type:** Toxic Industrial Chemical Situation: Past Report **Description:** Sodium Hypochlorite Release **Chemical Name:** Sodium Hypochlorite **CAS Number:** 7681-52-9 Chemical State: Liquid Source / Container: Other Container **Quantity released:** 2811 Released: Outside environment Cause of release: Operator error Storm drains affected: No Waterways affected: No Major roadways closed: No

### Sodium hypochlorite release in Port Charlotte

### Attachment: NRC#1301524

### Update 2 - 03/30/2021-08:22 / DEM-Holcomb

Per Patricia Goense via email: "OER (P. Goense) spoke with reporting party (Doug Friloux) in reference to a release of 500 gallons of sodium hypochlorite at an SCP Distributors facility. Mr. Friloux reported that the release occurred due to a truck impacting a sodium hypochlorite pipeline, resulting in the release impacting the impervious lot of the facility, as well as soil leading to a drainage ditch. The release was reported to have occurred on 3/26, and at the time of the release the leak had ceased and the material had entirely soaked into the soil, no other remedial actions were reported at this time. SCP Distributors reported that they are in the process of contracting an environmental cleanup company to assess the impacts and conduct the required cleanup activities. OER advised them of soil and groundwater cleanup requirements. No OER on-scene response is anticipated at this time."

### Update 1 - 03/29/2021-20:54 / DEM-Thomas

NRC#1301524 has been added to this report.

### **Main Information**

Report #: 2021-1680

Status: Closed

Assigned To: DEP / Patricia Goense

**Reported to SWO on:** 3/29/2021 20:03 ET

Severity: Local Incident

**Description:** Sodium Hypochlorite Spill

This situation involves: Hazardous Materials

Affected Sectors: DEP District - South, DEP OER Ft. Myers On-Call

### **Initial Report:**

An estimated 500 gallons of sodium hypochlorite were released from a holding tank at a facility in Port Charlotte. Caller advised that a truck clipped a pipeline that was connected to the tank causing the spill. The majority of this release was to pavement and soil but some did impact a nearby ditch where it was contained. No clean up actions were reported.

Injuries: No

Fatalities (Unconfirmed by State Medical Examiner): No

**Environmental impact:** Yes

**DEP callback requested:** Unknown

Incident Occurred: 3/26/2021 13:30 ET

Most Recent Update Date/Time: 03/30/2021-11:18 ET

**Most Recent Update:** Per Patricia Goense via email: "OER (P. Goense) spoke with reporting party (Doug Friloux) in reference to a release of 500 gallons of sodium hypochlorite at an SCP Distributors facility. Mr. Friloux reported that the release

occurred due to a truck impacting a sodium hypochlorite pipeline, resulting in the release impacting the impervious lot of the facility, as well as soil leading to a drainage ditch. The release was reported to have occurred on 3/26, and at the time of the release the leak had ceased and the material had entirely soaked into the soil, no other remedial actions were reported at this time. SCP Distributors reported that they are in the process of contracting an environmental cleanup company to assess the impacts and conduct the required cleanup activities. OER advised them of soil and groundwater cleanup requirements. No OER on-scene response is anticipated at this time."
